

## Covidence: Better systematic review management

Covidence is now available for MD Anderson authors who are working on systematic reviews, meta-analyses, and clinical guidelines. This web-based tool streamlines systematic reviews by facilitating collaboration, importing citations, streamlining screening, data extraction, quality assessment, and helping you keep track of your work.

Before you begin your systematic review, meta-analysis, or guideline, [contact one of our expert librarians](#). Librarians will guide you through the review process and help you use Covidence efficiently.

### Dear Editor: What is a journal impact factor and why does it matter?

Tuesday, February 22; 10:00am

Join us for a series of conversations on scientific writing and publishing. In the second conversation of the series, we will talk about what constitutes a "good" impact factor and how to tell if a journal has a good reputation.

## JoVE: 10,000 videos

MD Anderson staff members have access to the complete JoVE collection. JoVE began as a journal with short videos attached to each article. It has now expanded to include education content. This includes JoVe Core, Lab Manual, and Science Education collections.

Faculty and instructors can build a playlist of videos, create quizzes, and embed videos [in Canvas or Study](#).
